

Creative Engineer with over four years of professional experience across enterprise, advertising, and real estate. Combining a foundation in Mechanical Engineering with Visual Design, AI, and Product Thinking to build scalable creative systems and human-centered digital experiences.

PROFESSIONAL EXPERIENCE

Graphic Designer

E-Infra

NOV 2025 – PRESENT

- Design OOH advertising systems : billboards, uni-poles, hoardings, pole kiosks, bridge panels, and median boards - plus multi-tower directional signage and wayfinding for real estate launches.
- Created social campaigns for 6 residential projects.
- Created real-estate background images, textures, and visuals through AI (Luma, Gemini, and ChatGPT) - saving about 50% on concept generation time.
- Independently manage design processes: asset versions, multiple size adaptation, fast turnaround delivery.

Production Designer / Creative Engineer

Critical Mass · Annalect · Omnicom Media Group, India

MAY 2024 – JUL 2025

- Multiformat production** - created display advertising, OOH, emailers, social creatives, website banners, programmatic video frameworks for global brands, adapting each across sizes, languages, and platforms.
- Worked with global brands across **Telecommunications** (AT&T), **Automotive** (BMW), **Consumer Electronics** (Philips), **FMCG/Food & Beverage** (Lipton, Campbell's), **Retail & Apparel** (Athleta), **Banking & Financial Services** (BBVA) and many more.
- Creative audits** - audited creative output for brand and messaging gaps, flagging issues and proposing fixes ahead of client review.
- AI-assisted exploration** - introduced AI-generated backgrounds and variations into early ideation, accelerating concept exploration and collaborating with cross-functional teams to meet tight deadlines.

Multimedia Designer

EY GDS, India

JUL 2022 – SEP 2023

- Produced brand-aligned internal communications - brochures, presentations, change-management material - supporting company-wide communication initiatives in Adobe Creative Suite.
- Built presentations and explainer videos for internal and client-facing audiences using Synthesia and Vyond, reducing production time against live-action alternatives.
- Created basic interactive PDFs in InDesign and contributed to e-learning modules built in Articulate Storyline and Rise.
- Led social content for an internal initiative and moderated a global EY event, presenting directly to leadership.

Highest Performing Team Award · "Above and Beyond" Award (Global Event Hosting) · Wellness Champion Award

UI/UX Design Intern

Pentonix

MAY 2022 – JUN 2022

- Designed a company website end-to-end in Figma, from wireframes through final UI.
- Partnered directly with developers through implementation, reviewing build output against design intent.

Graphic Designer

Stalkus Digital

MAY 2021 – MAY 2022

- Built a visual identity system for a client brand.
- Designed visual UIs for an e-sports brand, an e-commerce brand, and an investment platform.
- Designed a project-management dashboard for a design agency's internal tool.

INDEPENDENT AI & TECHNOLOGY PROJECTS

MULTI-MODEL AI WORKFLOWS · PROMPT ARCHITECTURE · HUMAN-IN-THE-LOOP CREATIVE SYSTEMS

HYDRA

CONCEPT · PRODUCT THINKING · UI DESIGN · CREATIVE DIRECTION

Conceptual real-estate intelligence platform unifying map data, RERA compliance records, builder profiles, and market analytics into a single AI-assisted dashboard.

REDash

PRODUCT THINKING · INTERFACE DESIGN · TECHNICAL DOCUMENTATION

An independent product-design exploration investigating connected dashboard experiences through UX research, interface design, AI-assisted prototyping, and systems thinking. The project focuses on understanding interaction flows, documenting product behavior, creating interface concepts, and building a structured design process for complex connected experiences.

Core Disciplines: Product Thinking · UX Research · Interface Design · Information Architecture · Design Systems · AI Workflow Design

HelixAI

AI PRODUCT DESIGN · WORKFLOW AUTOMATION · HUMAN-AI COLLABORATION

An independent AI workflow and product-design exploration focused on building intelligent creative systems that combine automation, visual design, and human-centered thinking. The project explores AI-assisted content creation, workflow orchestration, interface concepts, prompt engineering, and scalable design frameworks to improve creative and operational efficiency across digital products.

Core Disciplines: AI Product Design · Workflow Automation · Prompt Engineering · UX Design · Creative Systems · Design Strategy · Human-AI Collaboration

SKILLS

CREATIVE Visual Design, Brand Systems; OOH Design, Campaign Design, Creative Direction	MARKETING/ADVERTISING Campaign Design, Social Media, Content Design, Marketing Collateral	OPERATIONS Project Coordination, Cross-functional Collaboration, Stakeholder Communication, Creative Workflows
PRODUCTION Creative Production, Asset Adaptation, Multiformat Design, Production Workflows, Quality Assurance	AI Prompt Engineering, Creative Automation, AI-Assisted, Ideation, Workflow Optimization	DIGITAL Digital Design, Web Design, Display Ads, Social Media, Email Design
SOFTWARE Figma, Adobe Creative Suite, Canva, Vyond, Synthesia	PRESENTATION PowerPoint, Keynote, Figma Slides, Presentation Design	

EDUCATION

M.Tech, Design & Manufacturing Engineering Centurion University, Bhubaneswar, Odisha	B.Tech, Mechanical Engineering SRM University, Kattankulathur, Chennai
Professional Program, UI/UX Design Wiztoonzy Academy of Media & Design, Bengaluru	Tool Design & CAD-CAM Training Central Tool Room & Training Centre, Bhubaneswar
